

# HESHAM SAAD

Senior React | MERN Stack Developer

Email: [heshamsaad151t@gmail.com](mailto:heshamsaad151t@gmail.com) | Phone: +20 1275794590 | Location: Cairo, Egypt

Portfolio: <https://heshamsaad.vercel.app/> | LinkedIn: <https://www.linkedin.com/in/hesham-saad-a28429215/>

## Professional Summary

Highly accomplished **Senior React/MERN Stack Developer** with **5 years** of progressive experience in leading the full-cycle development of scalable, high-performance web applications. Proven expertise in the MERN stack (MongoDB, Express, React, Node.js), specializing in translating complex business requirements into robust, maintainable solutions. Drives engagement by architecting intuitive user interfaces, optimizing database efficiency, and enforcing engineering best practices across cross-functional teams.

## Core Technical Skills

Category	Skills
Front-End	React.js, Redux, React Router, Next.js (if applicable), State Management
Back-End/API	Node.js, Express.js, RESTful API Design, Microservices (if applicable)
Databases	MongoDB, Database Schema Design, Optimization
Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/LESS
Tools & Practices	Git/GitHub, Code Review, Agile/Scrum, Deployment (AWS/Heroku - <i>if applicable</i> )

## Professional Experience

### Senior MERN Stack Developer

Eamak Tech Company | January 2025 – December 2025

- **Architected and deployed highly scalable RESTful APIs** using Node.js and Express, ensuring system reliability and seamless front-end integration.

- **Optimized MongoDB database queries and schema design** for high-traffic applications, significantly reducing server response times and enhancing overall performance.
- Implemented complex, performance-focused React components with **Redux state management** to deliver highly responsive and intuitive user interfaces.
- Conducted rigorous code reviews and enforced technical best practices, which **reduced production defects by an estimated 15%** and maintained code quality standards.

## Senior React Developer

Ez Eats Company | January 2024 – January 2025

- **Engineered a comprehensive library of reusable React components** that streamlined the development workflow, **increasing component reuse by 40%** across multiple internal projects.
- Spearheaded the implementation of critical user-facing features, focusing on **responsive design** and state synchronization to deliver a smooth and consistent UX.

## Senior React Developer

Desh & Dez Company | January 2023 – January 2024

- Led the full-cycle development and maintenance of the core **Desh & Dez dashboard application** using React.js.
- Optimized front-end performance and ensured high responsiveness, delivering interactive user interfaces that improved data visualization and user decision-making speed.

## Full-Stack Developer (REACT & NODE)

MEO Development Company | January 2020 – January 2023

- Designed and implemented end-to-end solutions, encompassing **MongoDB database schemas, RESTful APIs** (Node.js/Express), and comprehensive React front-ends.
- Developed and secured the platform with robust **authentication and authorization** features, protecting user data and ensuring system integrity.

## Front-end Developer (REACT) Junior

Neo Tutum Company | 2019 – 2020 (*Estimated Dates*)

- **Refactored critical legacy React components** to improve code clarity and maintainability, which **sped up the onboarding process for new team members by 20%**.
- Developed and maintained user-facing web applications, focusing on responsiveness and cross-browser compatibility.

## Education & Certifications

Bachelor of Computer Science

Skarya University, Istanbul, Turkey

React Developer ITI Certification

ITI Institute, Cairo, Egypt

# Languages

- **Arabic:** Native Proficiency
- **English:** Professional Working Proficiency
- **Turkish:** Professional Working Proficiency
- **German:** Basic Conversational Proficiency
